

ICPC Latin American Regional Contests – 2024

November 9, 2024

Time Limits for the Contest Session¹

Problem	Name	Time Limit Per Test*
A	Append and Panic!	0.5
B	Biketopia's Cyclic Track	0.5
C	Cindy's Christmas Challenge	1.5
D	Diverse T-Shirts	0.5
E	Evereth Expedition	0.5
F	Finding Privacy	0.5
G	Grand Glory Race	1.0
H	Heraclousures	5.5
I	Inversion Insight	0.5
J	Jigsaw of Shadows	0.5
K	Kool Strings	0.5
L	Latin Squares	0.5

Output size limit for problems B and I: 2MiB

Output size limit for the remaining problems: 1MiB

Contestants generally do not need to worry about output size limits, as these are merely technical constraints. The problem setters have ensured that the output size limit is more than sufficient for any valid submission. However, since output to stderr also counts towards this limit, excessive debug logging can lead to runtime errors. If you encounter an unexpected runtime error, it may be due to excessive logging to stderr.

* Note that this year time limits do not depend on the programming language.

¹Times are given in seconds.
